

libs/models/m_multyline.h

```
graph TD; A[libs/models/m_multyline.h] --> B[vector]; A --> C[m_point.h]
```

The diagram illustrates the dependencies of the header file `libs/models/m_multyline.h`. It is represented as a box at the top with two arrows pointing downwards to two other boxes: `vector` on the left and `m_point.h` on the right.
